## Union Pacific Election.

Boston, 5.—Stockholders of the Union Pacific railway held their annual meeting to-day. An amendment to the by-laws, changing the day and date of the meeting to the last Wednesday of March at 10 a. m., in the company's office in Boston, was adopted. The old board of directors was re-elected, except Augustus Schell and Solon Humphreys. Hugh Riddle, of Chicago, and James Rumrill, of Springfield, were elected to fill their places.

New York, 5.—The annual report of the Union Pacific shows the gross earnings were \$21,000,000; a decrease of 1,829,000, compared with last year; income from other sources, \$2,660,000; operating expenses, \$10,618,000.

## France and Our Pork.

Paris, 5.—A majority of the Parliamentary committee, who have been examining the question of the importation of American saltmeats, are in favor of the government proposal to appoint officers to inspect imports on their arrival in France. M. Paul Bert is in favor of a convention with America for the regular inspection of pork in America by officers empowered to issue certificates, which shall then be vied by the French consul of the port from which the pork is shipped. When the pork arrives in France it would only be necessary then to see whether the French consul had properly vied the certificates or had endorsed an objection upon them.

## Manitoba Farmers.

St. Louis, 5.—Associated Press Winnipeg special: About seventy delegates are attending the farmers' convention which opened at 10 this morning. A committee was appointed to interview the local government so as, if possible, to work in harmony with members of the government in demanding better terms from the Ottawa government. A committee was also appointed to draft resolutions for discussion. This committee will meet this p. m. It is understood a resolution will be based upon the original bill of rights passed in the last session of the convention.

## Cattle Diseases.

London, 5.—Cattle traders held a meeting in London this morning, and resolved to ask government to reject the bill adopted by the House of Lords amending the law regarding contagious diseases of animals, in a way so as to place great restrictions on the importation of foreign cattle, or abandon the cattle reserve altogether. Right Hon. Wm. E. Forster said that the sole motive for the law was the exaggerated fears of farmers, who were afraid that the live cattle trade would be destroyed, and who desired to stop the importation of dead meat.

## Free Again.

New Lexington, Ohio, 5.—Father Overlan, arrested night, appeared this morning, waived examination and gave bail in \$800. A. J. McDewitt and the Father returned to Corning this morning, heavily armed. They were warmly greeted by friends. Eight of his abductors are in jail.

## Returned.

Berlin, 5.—The Princess Marie Anna returned to Berlin yesterday and rejoined her husband. The latter met her at the railway station. Later in the day she was received by the Emperor and Empress.

## PRICKLY ASH BITTERS

The majority of the ills of the human body arise from a derangement of the Liver, affecting both the stomach and bowels. In order to effect a cure, it is necessary to remove the cause. Irregular and sluggish action of the bowels, Headache, Sickness at the Stomach, Pain in the Back and Loins, etc., indicate that the Liver is at fault, and that nature requires assistance to enable this organ to throw off impurities.

Prickly Ash Bitters are especially compounded for this purpose. They are mild in their action and effective as a cure; are pleasant to the taste and taken easily by both children and adults. Taken according to directions, they are a safe and pleasant cure for Dyspepsia, General Debility, Habitual Constipation, Diseased Kidneys, etc., etc. As a Blood Purifier they are superior to any other medicine; cleansing the system thoroughly, and imparting new life and energy to the system. It is a medicine and not an intoxicating beverage.

## A MAGIC POWER!

A Secret Agent at Work.

We were surprised the other day to learn that certain individuals in this city, who had for many years yielded to what was apparently an inevitable fate, were startled from their torpid condition of semi-stupidity, into asserting their right to "life, liberty and the pursuit of happiness." These parties had been bound by an influence as powerful as it was incomprehensible. They knew not the cause, yet they were victims to the result. They were enchained, but they could not discern by what means they had been manacled. They had long sought deliverance in vain. Their appeals to science and the knowledge contained in books were equally unavailing. At last, relief came. It was not through any action of the President, or of Congress, for their trouble was not of a political character. Neither did the Governor's message relieve them, nor any action of the new Legislature, for it was out of their power and foreign to their jurisdiction. Yet they were suddenly and effectually released from the bondage they suffered, and placed on the equal scale of human happiness. "What was their trouble?" is what our readers will ask. They had been rendered helpless by that universal enemy—rheumatism. They had not walked or even moved without pain for years, and on the strong recommendations of friends "who had been there," they tried Britania, and were at once relieved and radically cured. Britania is what did it. It acted like a magic power. This secret agent quietly scoured through their veins, removed the cause of the trouble, liberated the captives from their doomed condition, and now they congratulate each other on the accomplishment of such a triumph, and the acquisition of the knowledge, by which they can at any time resist the encroachments of their common foe. We could give the names of the parties, but will wait a future time.
